Working together - protecting our coastline

Protecting Gosport from coastal flooding

Next Steps...

The next steps for the project are to complete the detailed design for Alverstoke & Forton due in early 2020, with the licensing and consenting process (planning permission, Marine Management Organisation consents etc.) starting at the end of 2019 and continuing into 2020. Procurement of the construction works will occur in 2020.

The enhanced outline design for Seafield is also being progressed with completion slightly after Alverstoke and Forton in early 2020, this take the design to a stage where planning permission could be submitted, but further detailed design would be required to take it to construction.
